- Compact and lightweight electric power steering delivers lighter steering in a variety of conditions to reduce rider fatigue. It is positioned high on the vehicle to avoid water and debris. (KINGQUAD 500AXI 4x4 Power Steering only)
- 493cm³ fuel-injected 4-valve powerplant engineered for robust output throughout the rpm range, along with strong top-end power.
- Fuel injection improves throttle response and fuel efficiency, while delivering power consistently and improving engine start.
- Efficient and functional fully automatic QuadMatic Continuously Variable Transmission (CVT), using a durable V-belt and centrifugal clutch.
- Advanced engine-braking system helps the transmission control vehicle speed to minimize freewheel during descents.
- Torque-sensing differential with three modes - 2WD, 4WD or differential-locked 4WD - easily selected with a handlebar-mounted button.

- Fully independent suspension system - A-arm front and A-arm/I-beam rear - delivers superior riding comfort and versatile handling performance.
- Shock absorbers at all four corners are adjustable for five different preload settings, providing maximum versatility for different loads.
- Front dual hydraulic disc brakes and rear sealed oil-bathed multi-disc braking system deliver strong and consistent stopping performance.
- 25-inch tires with tread and sidewall character specially designed for the machine, mounted on lightweight and sturdy aluminum rims.
- Gate-style drive mode selector lever lets the rider easily and securely select between low, high, neutral or reverse setting.

- Suzuki's exclusive T-shaped seat, designed for all-day comfort and easier body-weight transition during sporty trail rides.
- Fuel tank positioned below the seat helps keep the machine's weight center low. The tank's ratcheting gas cap is easy to tighten.
- Standard equipment including a tow hitch and a sealed 12V accessory outlet.
- Two storage compartments: one easily accessible under the rear fender, and another with a spin-off top on the right front fender.
- Complete gauge package, including a speedometer, odometer, separate trip meter, gear and differential displays, fuel gauge, clock and more.
